This document has been created as part of the wider T-shore project, co-funded through the European Union's ERASMUS+ programme.

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.

Document Information

Project Acronym	T-shore
Project Title	Technical Skills for Harmonised Offshore Renewable Energy
Award Number	Project 101055746
Work Package	WP3,4
Deliverable	LSC – Equipment Checklist: Example for Instructor
Document Title	Power-to-X Equipment Checklist: Example for Instructor
Primary Author(s)	Dennis Lindkvist Nørbjerg, Heidi Katrine Rosenberg, Verner Johnson,
	Jens Høffner
Co-Author(s)	All partners

Version Control

Version No.	Date	Description	Prepared by	Checked by
01	28.04.2025	New instruction and picture of equipment added.	DLN	НЈ
02	22.11.2024	New instruction created, cosmetic changes	JH	Hj

Note This is a fictive generic equipment checklist intended for training purposes and therefore may vary from the equipment checklist provided by a company. It is important that a technician always read and fill checklist carefully prior to any task.

Component name	Visual condition	Working condition	Comment
Visual Inspection Check all components for cracks, corrosion, leaks, and loose electrical connections.			
Leak Test Perform a leak test before operation to ensure hydrogen containment.			

Erasmus+ Enriching lives, opening minds.

Safety Systems Verify emergency stop functionality, proper ventilation, and use of personal protective equipment (PPE).		
Calibration Ensure all sensors (pressure, temperature, flow) are calibrated and valid.		
Water Quality Use only specified water types (deionised or distilled) to avoid contamination.		
Power Supply Confirm stable and correctly grounded electrical supply.		
Startup Position Check that all valves and regulators are in the correct starting position.		
Documentation Always follow manufacturer guidelines and record any deviations.

Co-funded by the European Union

The T-shore project is funded through the the Erasmus+ Centres of Vocational Excellence (CoVEs) call 2021

Acknowledgements

We would like to extend our sincere thanks to all the project partners for their invaluable contributions to this report and their dedicated work on the T-shore project.

Our deepest appreciation also goes to all T-shore stakeholders, particularly the members of the regional Centres of Vocational Excellence (CoVEs), whose ongoing efforts are instrumental in driving the success of this initiative.
